About Me

I am a passionate front-end developer with experience in building responsive and user-friendly web applications. I have a strong background in HTML, CSS and JavaScript. I am also familiar with Python, MySQL, and frameworks like Tailwind CSS and Bootstrap. I am always eager to learn new technologies and improve my skills to create better user experiences.

Skills

- [HTML](#)
- [CSS](#)
- [JavaScript](#)
- Python
- MySQL
- Tailwind CSS
- [Bootstrap](#)

Education

- **Computer Technology**
[University of Computer Studies,Kalay]
2018-2020
- **Web Development**
[Digital Skills Institute]
June - July (2025)
- **Python Programming**
[Digital Skills Institute]
March - May (2026)

Projects

- [Personal Portfolio Website](#)

I created a personal portfolio website to showcase my skills and projects. The website is built using HTML, CSS, and JavaScript, and it features a responsive design that works well on both desktop and mobile devices. The portfolio includes sections for my about me, skills, projects, and contact information. I also implemented smooth scrolling and interactive elements to enhance the user experience.

- [Bookstore Library Management System](#)

I developed a book management system for a local bookstore, allowing staff to track inventory, manage customer records, and process transactions. The system was built using Python and MySQL. It features a user-friendly interface and provides functionalities such as adding new books, updating stock levels, and deleting records. The system has helped the bookstore improve its efficiency and organization.

Language

- English (B1 intermediate)
- Chinese (Basic)
- Burmese (Native)
